## WESTERN N. C. CONFERENCE.

### The Tenth Annual Session Convenes at Concord.

Special to the TELEGRAM.

Concord, N. C., Nov. 22—This morning at 9:30 the Western North Carolina Conference convened in its tenth annual session, Bishop J. S. Key presiding. He conducted the opening devotional exercises. When the roll was called more than 150 preachers answered to their names. The usual standing committees were appointed and various communications were read and referred to the proper boards and committees. A number of visitors were introduced.

Rev. N. M Jurney spoke in behalf of Craven Memorial Hall. The Oxford Orphanage was represented by Mr Rogers. The twentieth question was called and the characters of the presiding elders were passed. All of these made reports showing the work of the church to be progressing encouragingly. The characters of the superanuated and supernumerary preachers were passed also. Several of these were present and spoke affectingly.

The name of John R. Scroggs was substituted for Chas. W. Byrd, on the committee for examining applicants for admission into the conference, the latter having been transferred.

Conference adjourned at 12:30. To-night Rev. J. D. Hammond will address the educational meeting. He is secretary of the board of education.

## THE VOTE IN OHIO.

### Unpopularity of McLean Shown by the Official Counts.

Columbus, Nov. 21—The result of the official canvass of the vote of Ohio is as follows:

For governor—Nash, republican, 415,199; McLean, democrat, 368,176; Jones, independent, 106,721. Judge Patrick, democrat, for lieutenant governor, leads McLean by 47,408.

Allan W. Thurman, in analyzing the vote, says the difference represents a democratic protest against McLean's candidacy.

"Papa," came a shrill, small voice in the silent watches of the night, "I want a dwink!" "Well, there's the bed spring right under you," drowsily replied the parent. For he was a professional humorist, and the habit is strong.

## NOTHING NEW IN AFRICA.

### The Boers Establish a Flanking Force at Greytown.

### GERMAN SETTLERS ARE EVICTED

### From Greytown for Refusing to Take the Oath of Allegiance to the Transvaal.

By Cable to the Telegram

Orange River, Nov. 22—The Boers occupy the same position at Belmont they did a fortnight ago. When Col. Gough engaged them, three shrapnel shells fell close to the lancers' patrol, but no damage was done. The Boers are evidently reinforced as two new laagers can be seen. They have mounted cannon at Belmont.

GREYTOWN OCCUPIED.

Durban, Nov. 22—The Boers have occupied Greytown, which flanks the route of the relief corps to Ladysmith and Estcourt. After occupying Greytown the Boers, it is said, evicted all German settlers, including the women and children, who refused to take the oath of allegiance to the Transvaal

BOERS SWARMING

London, Nov. 22—There has apparently been no communication with Estcouourt since noon of last Tuesday. The Boers are now in conturol of the railroad from Estcourt to the Mooi river, consequently momentous events may be expected to occur at any time. The Boers are swarming to the southward. Large bodies of them are reported. Parties are even threatening Pietermaritzburg. The Boers are encamped at Highlands Station and are well supplied with artillery.

## WANTS TO LEAVE THE COUNTRY.

### The Hero of Manila Bay Sheds Tears Over the House Matter.

By Wire To THE TELEGRAM.

Washington, Nov. 22—Dewey said today that he is greatly grieved over the criticism of his deeding his house to his wife. He shed tears and said he was sorry he ever took the house. He would not have accepted the house had he known a string was attached to it. He feels so disgusted that he would like to leave the country, and almost regrets the battle of Manila Bay.

## HOBART'S FORTUNE.

### He Leaves a Couple of Millions and a Big Life Insurance Policy.

By Wire to the TELEGRAM.

Paterson, N. J., Nov. 22—The vice-president leaves a fortune valued at from two to three millions. His life was insured for $150,000.

If a Pythian wants to secure $2,000 to his family in case of his death, and he does not exceed thirty years of age, he can do so for the sum of 40 cents per week, by obtainining a certificate of membership in the Endowment Rank of the order, and for 55 cents per week, he can protect his widow and orphans in case of his death, and secure for them the sum of $3,000. The Endowment Rank is now paying out over $1,250,000 per annum and all this goes for the relief and protection of the widows and orphans of our membership, thus protecting the lodge from the loss which would fall on it were these families left dependent. G. H. Royster is general organizer for North Carolina, Alabama and Georgia. Office, Wright building, opposite court house.

## THE DEWEY HOUSE AGAIN

### Another Transfer Due to the Flood of Indignant Protests

Washington, Nov. 21—John R McLean announced today that papers transferring the Dewey home from Mrs. Dewey othe admiral's son, Geo Goodwin Dewey, had been drawn up and would be placed on record immediately. It is the general opinion that this is the result of universal criticism of the admiral's action in giving the house to his wife.

This afternoon's papers are filled with protests against the transfer of the house to Mrs. Dewey.

### An Amicable Adjustment.

Columbia, S. C., Nov. 21—The Atlantic Coast Line and the Seaboard Air Line have arrived at an amicable adjustment of the wrangle occasioned by the former building a sidetrack across the Seaboard's right of way on Lincoln street, this city. General Manager Kenly, of the Coast Line, appeared before a special meeting of the city council today and disclaimed intention of violating the ordinance or of unfriendliness to the Seaboard Council adopted a resolution granting a right of way to the Coast Line, not to interfere with the Seaboard's main line. This was accepted by Capt. V. E McBee, general superintendent of the Seaboard.

### Firemen!

There will be a meeting of the department on Friday, 24th inst., at 7:30 o'clock p. m., in firemen's hall. Business of importance to every fireman.

By order of the chief.

## CONDITION IMPROVED.

### The Investigating Committee Completed Its Work Yesterday.

The condition of the sick at the State Normal and Industrial College is gradually improving; four or five of the young ladies were able to go home to-day, and the others are thought to be some better.

A reporter had a talk with Dr. McIver this afternoon, and he says that with the exception of two or three the patients are some better.

There now remain at the Normal 37 patients, but two of these are members of the faculty. Miss Annie Wiley is improving.

The college authorities and a number of physicians and trained nurses are doing everything possible. The citizens of Greensboro are manifesting the deepest sympathy and are lending all aid necessary or requisite. Ladies from the city are volunteering their services as nurses and many of them are actively engaged in caring for the sick.

A chemical analysis of the water from the three wells on the premises shows that it is good, pure water, and suitable for drinking and cooking purposes. The analysis was made by the state chemist, D. W. Kilgore, of Raleigh.

A bacteriological test of this water is now being made by the state bacteriologist, and the analysis will be published in a few days.

A representative of the Telegram last evening interviewed Col. A. W Shaffer, of Raleigh, and Dr. H. H. Dodson, of Wilson, who compose the special investigating committee of the state board of health, and these gentlemen stated that they had made a thorough inspection of the premises and are confident that the malaria comes from a defect in the sewer under the dining room.

The terra cotta pipe has been leaking in ten or twelve places and the sickness is caused by inhalation and absorbtion.

The committee made out its report last night and forwarded it to the secretary of the state board of health It will be published later.

The defect in the sewer is now being remedied by a large force of plumbers and also the entire sewer line at the college will be taken up and inspected.

The committee found the dairy well kept and no other defect was discovered in the sanitary condition of the college.

The committee visited the colored A. & M. College yesterday evening and inspected the buildings and grounds. Dr. Dodson and Col. Shaffer returned to their respective homes last night.

Among those that this sickness has brought to Greensboro are: Dr. Merritt, of Person county, who carried his daughter home yesterday; Dr Adams, of Statesvilte, and Mr. and Mrs. T. B. Bailey, of Mocksville, who came to see Mr. B's daughters; Dr. Walton, of Person county, who is attending Miss Agnes Moore, of that county; Dr. Blount, of Washington, N. C, the family physician of Mr. Bridgeman, whose daughter is one of the patients; Mrs. C. H. Wiley, of Winston, who is attending her daughter, Miss Annie Wiley, a member of the faculty, and Misses Hobbs and Pfohl, of Salem, who are nursing some of the patients.

### A Very Striking Resemblance.

That G. Sauvlet, of the Brehany Company, who played the piano so exquisitely last evening, bore a striking resemblance to the late Anton Seidl, was the subject of comment. Speaking of Anton Seidl, he was the greatest conductor of Wagner music New York, or possibly the world has ever heard. The following words appear in a letter above the signature of this great musician: "Thorough professional trial of the Kimball Piano justifies me in commending it as one of our few first class instruments of music."

If you intend to buy a piano, why not get one with a musical reputation? We are always glad to talk "piano" to prospective buyers—or any one else; we are paid to do that, but we promise right here in print, to either prove to you that our instruments are backed by higher musical endorsement than ninety-eight per cent. manufactured in America, or never say "piano" to you again as long as the world stands.

W. Frank Blount,
Gen'l Southern Representative Kimball Piano.

### Hunting Near Durham.

The Durham Sun says:

Solicitor A. L. Brooks, of Greensboro, was here Sunday morning and left for Oxford, where he is looking after the interest of the state at Granville superior court this week.

Mr. Brooks and Judge Brown, after the adjournment of Person superior court at Roxboro last week, went over to Col. J. S Cuningham's place, at Cuningham station, and spent two or three days bird hunting. Col. Cuningham entertained them royally and with great hospitality, for which he is famed, and these gentlemen enjoyed their stay there to the fullest extent.

### W. C. T. U Meeting.

The regular business meeting of the Woman's Christian Temperance Union will be held tomorrow afternoon, at Grace church, at 3 o'clock. All members are requested to be present.

The Endowment Rank has already paid, during the few years that it has been in existence, $14,000,000—this money has all gone for the benefit of the widows and orphans of deceased Pythians, solely and wholely for their benefit. There has been $23,000 paid out in this city.

## THE MINORITY LEADERSHIP

### In the Next Congress—Who Will Hold It?

### BAILEY, OF TEXAS, WITHDREW

### But Some Members Believe that the Texas Man Will Be Chosen in Spite of His Declination.

Special to The Telegram.

Washington, Nov. 22—Representative Bankhead, of Alabama, seems to be looming up as a candidate for the minority leadership. Congressman Hall, of Texas, who is now in the city, says that he will support Bankhead in the Democratic caucus, as he regards him as the best equipped candidate for the honor. Mr. Bankhead is highly regarded by all the members of the house of representatives, and his long experience in the legislative halls makes his judgment valuable to his party associates. Mr. Ball says that Mr Bankhead will enter the democratic caucus with a large following. It is anticipated that he will get the entire vote of the Alabama delegation and the Florida and perhaps Georgia delegations. It is Mr Ball's opinion that he will get the votes of perhaps one-half of the members of the Texas delegation, as well as support from other states in the south. It is said that the South Carolina delegation may give one or two votes to Bankhead on the first ballot.

It transpires that De Armond is likely to get several southern votes which heretofore have been thought certain to be cast for Mr. Richardson, of Tennessee. Several members of the Virginia delegation will vote for the Missouri man as the democratic nominee for speaker, the remainder going for Mr. Richardson.

None of the candidates for the minority leadership in the next congress have yet opened their headquarters here, but it is said that both Messrs. Richardson and De Armond will be here within a few days.

It is said that Mr. Bailey, of Texas, who withdrew as the minority leader, will not stand for the honor this session. There are some members who believe, however, that the Texas man may yet be chosen in spite of his declination. It is said Bailey personally prefers Richardson.

As stated, the Virginia delegation will be divided in the democratic caucus upon the nomination for the minority candidate for speaker, which is virtually the selection of the minority leader. According to the best information obtainable at this time, four of the members of the delegation will be for De Armond and six against him. The opposition will probably go to Mr. Richardson, one or two perhaps voting for Mr. Bankhead. The members who are against De Armond are said to be Young, Epes, Swanson, Otey, Hay and Rhea. Those who will vote for him are Jones, Rixey, Lamb and Quarles.

Provided Mr. Bailey, of Texas, is voted for, it is likely that several of the Virginia delegation would vote for the Texan.

Representative Gaston A. Robbins, of Alabama, has arrived in the city. Mr. Robbins will be the right hand man of Congresssman Bankhead in the contest over the minority nomination for the speakership. Mr. Robbins stated Tuesday that Mr. Bankhead is in every way equipped for the leadership in a body such as the house of representatives. He is a thorough parliamentarian, and has the qualifications to make a successful presiding officer of the house, which is one of the absolute essentials for a leader of the body, as he must possess a thorough knowledge of the rules and practices of the house.

Mr. Robbins has a contest on his hands and it is probable that he will not be allowed to serve out the full term to which he was elected. His opponent is ex-Representative Aldrich. who is also in the city Mr. Aldrich won the seat on a contest against Mr. Robbins during the last session of the house.

There will be a meeting of the North Carolina Association in this city next Saturday night. The object is to organize a historical association, which will be auxiliary to the North Carolina organization. Many ladies will be present, and the meeting will be closed with dancing.

## BRYAN AND HAYWARD'S SHOES.

### Indignant Denial Given to a Current Political Rumor.

Lincoln, Neb., Nov. 20—The stories sent out from Nebraska recently that Bryan was in communication with Gov. Poynter and eastern Democrats as to his accepting an appointment as ad interim senator in case Hayward should die was emphatically denied today by Mr Bryan's private secretary and Governor Poynter. Both say that not a single telegram has been received from either Bryan or any eastern Democrat, and that as a matter of fact Bryan has been in the Ozarks hunting and is inaccessible to a telegraph office. Both expressed indignation over the intimation that Bryan would violate common decencies by indulging in [illegible] Hayward [illegible]

## THE MULTIPHONE

### Augments the Sounds of Telephone and Phonograph.

La Nature gives a description of a multiphone, the invention of M Dussand. This appliance is intended to augment the sounds of the telephone and phonograph, as well as to apply to other uses. By the means of this instrument deaf persons have been enabled to hear the telephone and phonograph. But, while this is possible, its greatest utility will be in enabling partially deaf persons to hear these instruments, and to multiply their sounds so that they can be used in auditoriums on public occasions, as well as the multiplying of all kinds of sounds, and especially in rendering audible sounds now beyond the capability of the human ear.

### Funeral of Miss Abbie Deans.

The Wilson News contains a full column account of the funeral of Miss Abbie Deans, daughter of Mr. A. B. Deans, who died of typhoid fever at the Greensboro Normal. The funeral was held from the Methodist church Sunday afternoon and was attended by all the Sunday school children of the town. There were many floral offerings, the faculty and societies of the Normal sending beautiful ones. Miss Nettie Allen, one of the teachers from the Normal, attended. Miss Deans was a young lady of rare sweetness and grace and her death engulfed the whole town in gloom.

The Baltimore made Goodyear Welt ladies shoes sold for $2.75 at Thacker & Brockmann's, are making a great hit. Sewed like men's shoes, they are stout and serviceable, yet are pliant, flexible, feel good on the foot; in fact they possess just about all the good points that can be combined in one shoe. They come in various styles and shapes, lace and button.

## WHAT EXPANSION MEANS.

Commenting on the remark of somebody recently—and it is said to be a fact—that the south is now building cotton factories at the rate of one a week, we copy at length from a very sensible editorial in the Richmond Times of yesterday.

The Times says:

"Our informatfon is that fifty-seven new cotton factories were built in the southern states during the past twelve months. Therefore some of the timid ones are saying we are going to overdo the business, that we are going to build so many cotton factories that the country will be overstocked with cotton goods, and so the mills will have to shut down and thousands of men and women will be thrown out of employment.

"That is the view of the old-timer. It is not the up-to-date view. There was a time when American factories depended entirely upon the home market, and under the republican view of a high protective tariff our manufacturers thought little about branching out and seeking trade in foreign lands. But that is an old story. The new way is to increase our manufacturing output far beyond the needs of home consumption and then to seek foreign markets for the surplus. That is what expansion means, and expansion in that sense is the livest issue of this age.

"One of the most interesting statements that has been made in the southern newspapers for a generation is that which came a short time ago from the cotton manufacturers of South Carolina. They communicated to their representatives in congress the fact that a large proportion of the cotton goods now manufactured in South Carolina are sold in the Chinese markets. Therefore these cotton manufactures said to their representatives in congress that they wanted the government to stand by that open-door in China and keep it open. That if it should be closed it would be nothing short of a disaster to the manufacturers of South Carolina, but that if it should be kept open, South Carolina's trade in that quarter would continue to grow.

"That is the whole story in a nutshell. The south is quite capable of doubling its production in raw cotton, and so long as the markets of the world are open to us it is quite possible for the south to manufacture into cloth a large portion of the increased cotton crop and yet find ready sale in foreign markets for every yard that the mills can produce. We believe that the time is rapidly approaching when there will be no such thing as overproduction in this country."

---

When Dewey gave away the home his admiring cranks worked so hard to purchase and to present him with, lots of the cranks got highly insulted and a good deal of dissatisfied muttering was heard. They reasoned, of course, this way: That the admiral, in the natural course of human events, wouldn't be here probably many more years, and, whereas a widow never dies, Mrs. Dewey would soon wed again—probably some unromantic, undeserving man, who would become the happy owner of the mansion given to the hero of Manila Bay for his glorious war services. There's no telling what sort of a row the thing would have ended in if Mrs. Dewey had not on yesterday deeded the property to the admiral's only son, George Goodwin Dewey. This rapid shifting of the ownership of the Dewey mansion is funny and strange.

## THE CURFEW.

The following is from the Elmira (N. Y.) Daily Advertiser of Sept. 4:

"The curfew ordinance has been in operation in this city for one month, that of August, and the experiment must be regarded as out o' the doubtful stage. One of the most interesting phases of it is that the children themselves understand it better than most of the elders and make it self-enforcing. Not a voice is heard in this city after a month's trial in disapproval of the ordinance, but, on the contrary, the sentiment once hostile or indifferent is now unanimous for it Only one arrest has been made during that period. The most cordial approval of the rule comes from the police department, while all citizens agree that it is wholly admirable, for it is enforced faithfully and rationally. One very surprising feature of it deserves mention. Many of the children formerly seen about the streets at night now go to the Steele library for books. The demands of the children for books have astonished the librarian. The Advertiser sends greetings to interested contemporaries, noting with dismay the habits of young children as street walkers, and assures them that in Elmira, with nearly 50,000 population, the curfew is a magnificent success."

What we want some of the critics to do is to tell us why it is narrow and "country-like" for Greensboro to have a curfew law if it is a good thing in progressive New York state. And only a month or two ago, as we have previously noticed, Nashville, Tenn., adopted a similar law And there are several hundred cities as larg as Greensboro which have a curfew law

## HOBART'S PASSING.

The death of Vice-President Hobart early yesterday morning caused no surprise to anyone. He had been on the border for many weeks.

Garrett A. Hobart was in his 56th year. Until he was elected to preside over the senate and draw his salary, he was unknown outside of his own state. He began practicing law at the age of 25. The most important fact of his public life up to 1896 was his appearance in the New Jersey legislature. His next step was into the place he occupied at his death.

His demise removes from the stage of public life an honest, conservative, uninteresting actor. His place will remain unfilled during the rest of McKinley's term of office, as the law has provided for no vacancy in the vice-presidency. Mr. Frye, of Maine, will twirl the gavel till next year.

The college graduates of the country make a pretty good part of the population. Harvard takes the lead with a total of 22,987 graduates. Yale has sent out into the world 18,480 men, and Columbia 15,981. Princeton has graduated 7,500 students and Dartmouth 8,540. It would be interesting to know how many graduates our North Carolina colleges have turned out—the University, Davidson, Trinity, Wake Forest and the rest.

It is enough to create a stampede among nervous people to think that that fearful malady, the bubonic plague, is even as close as New York. It's said to be there in all its odiousness, but the patients are safely quarantined.

### Untold Love.

"Can a man and a woman love each other when their speech is differen and they can't exchange a word," said a lounger in the smoking room of one of the hotels last night. "Loti says they can. Most of his books are about the charming and poetical love that existed for a time between himself and a Japanese or South Sea Islander, a Turkish girl, a Montenegrin, a Tartar, or a Chinese lady. Loti will never forget these loves, he says in the books; but the fact that he abandoned them makes him rather a poor pleader. Go out into Dakota, though, into the wheat section of the northwest, if you want to know whether a man and a woman of alien speech can be lovers. Many of the wives there are Swedes, and they and their American husbands often can't understand a word the other says. Yet they seem contented, happy and more loving than the average couple. Women in the wheat section are the scarcest thing there is, you know; no women go there but Swedish girls, immigrants looking for places in kitchens These girls are married in a short time after their arrival by the young farmers of the neighborhood. The husbands are often educated Eastern fellows, who at home would have counted on wedding the daughters of lawyers, physicians or clergymen. But out there, where the women are so scarce, they are less particular, and they marry and are happy."—Philadelphia Record.

### Bismark's Iron Nerve

Was the result of his splendid health. Indomitable will and tremenduous energy are not found where stomach, liver and kidneys are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25 cents a box at C. E. Holton's drug store.

### No Cure—No Pay.

That is the way all druggists sell Grove's Tasteless Chill Tonic for Chills and Malaria. It is simply iron and quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating tonics. Price, 50c.

"What are that young man's intentions?" asked the anxious parent. "Really, father," replied the dutiful daughter, "I cannot say. I confess that when he calls I am very often in the dark."

Dr. H H. Haden, Summit, Ala., says: "I think Kodol Dyspepsia Cure is a splendid medicine I prescribe it, and my confidence in it grows with continued use." It digests what you eat and quickly cures dyspepsia and indigestion. Howard Gardner.

The man who says he is driven to drink never attempts to balk.

Geo. Noland, Rockland, O., says "My wife had piles forty years. De Witt's Witch Hazel Salve cured her. It is the best salve in America." It heals everything and cures all skin diseases. Howard Gardner.

The poet who says he makes money is a tuneful liar.

LaGrippe, with its after affects, annually destroys thousands of people. It may be quickly cured by One Minate Cough Cure, the only remedy that produces immediate results in coughs, colds, croup, bronchitis, pneumonia and throat and lung troubles. It will prevent consumption. Howard Gardner.

### Chamberlain's Pain Balm Cures Others, Why Not You?

My wife has been using Chamerlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best satisfaction. She has used only one bottle and her shoulder is almost well —Adolph L. Millett, Manchester, N. H. For sale by C. E. Holton, druggist.

### Not a Surprise.

It will not be a surprise to any who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and in telling of the benefit they have received from it, of bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand, good medicine. For sale by C. E. Holton, druggist.

### Used by British Soldiers in Africa

Capt. C. G. Dennieon is well known all over Africa as commander of the forces that captured the famous rebel Galishe. Under date of Nov. 4, 1897, from Vryburg, Bechuanaland, he writes: "Before starting on the last campaign I bought a quantity of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used myself when troubled with bowel complaint, and had given to my men, and in every case it proved most beneficial."—For sale by C. This is the best remedy in the world for la grippe, coughs, colds, croup and whooping cough and is pleasant and safe to take. It prevents any tendency of a cold to result in pneumonia.

### Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. Geo. D. Williams, of Manchester, Mich., tells how such a slave was made free He says: "My wife has been been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle-working medicine is a godsend to weak, sickly, rundown people. Every bottle guaranteed. Only 50 cents. Sold by C. E. Holton, druggist.

### Prevented a Tragedy.

Timely information given Mrs George Long, of New Straitsville, O., prevented a dreadful tragedy and saved two lives. A frightful cough had kept her awake every night. She tried many remedies and doctors but steadily grew worse until urged to try Dr King's New Discovery. One bottle cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and $1.00. Every bottle guaranteed. Trial bottles free at C. E Holton's drug store.

There are times when a horse knows more than a man: when instinct is superior to reason. The horse fights against being forced over the brink of a precipice which he can see in the dark but which is veiled from the man's eyes. It is often the same with a man's body; it fights against carrying the man over the brink of the precipice, disease. When the heart beats irregularly; when there are pains in the head, ringing in the ears, cough, indigestion, loss of appetite and lack of energy—some or all of these symptoms—the body is on the brink of danger and is crying "halt!" No man need be carried over the fatal brink of disease if he will heed Nature's warning and accept her help. This help in its most concentrated and perfect form is contained in Dr. Pierce's Golden Medical Discovery. This great alterative extract completely modifies every abnormal condition of the disordered digestive or alimentary functions. It makes the stomach strong, the blood rich and healthy, builds up the nerve centers and so regulates the functions of all the vital organs, that they co-operate perfectly for the health of the entire system. "Golden Medical Discovery" contains no alcohol, whisky or other intoxicant.

Mr. Geo. Minter, of 2237 Thompson Street, Philadelphia, Pa., writes: "Some time ago I was terribly run down. Numerous ailments had been coming upon me one by one. I decided to try 'Golden Medical Discovery' and the 'Pleasant Pellets.' The benefit derived was beyond my fondest hopes; I took five bottles of the 'Discovery' and used the 'Pellets' when necessary. During the time of taking the five bottles as directed, I gained in weight 24 pounds, weighing more than ever in my life; bringing me health and strength, and removing these ailments, viz: palpitation of the heart, sleepless nights, pressing and splitting pains in the head, ringing in the ears with partial deafness and throbbing, a racking cough, indigestion, depression of spirits, loss of energy, constipation, a tired feeling upon rising and through the day, appetite poor, sight defective, very nervous, etc. Those *golden bottles* of your 'Discovery' and the 'Pellets' removed all these troubles, and more, and made me as well at fifty as I have ever have been in my life."

## NOT AFTER THE ROCHESTER.

### Chauncey Depew, Speaking for the Vanderbilts, Denies Rumors.

New York, Nov. 20—Chauncey M. Depew, speaking today of the persistent rumors that the Vanderbilts were negotiating for the purchase of the Buffalo, Rochester & Pittsburg railroad, said:

"There are no such negotiations. The question of acquiring possession of the Buffalo, Rochester & Pittsburg has never been seriously considered by the Vanderbilts." Asked if the possession of that railroad would be of advantage to the Vanderbilt system, Mr. Depew replied:

"It would be of value, certainly, if obtained at a price that would not make a burden upon the Vanderbilt system. Its locations and connections are such that it might be of value to our lines, providing it could be made to pay for itself as an investment. But, as I have said, there are no negotiations for its purchase."

The Buffalo, Rochester & Pittsburg railroad is owned and controlled by the Iselins and their associates. These capitalists have confidence in the property, and are disposed to hold on to it. At the office of the company in this city the statement was made that there was no truth in the rumors of the pending sale of the road to the Vanderbilts.

Coupled with the Rochester & Pittsburg rumor was a story that the Lake Erie & Western was also to be acquired by Vanderbilt interests and combined with the Rochester & Pittsburg. This story is not only denied by all parties concerned, but attention is called to the fact that the Pennsylvania Railroad recently acquired control of the right of way, which Calvin S. Brice obtained for an extension of the Lake Erie & Western into Pennsylvania.

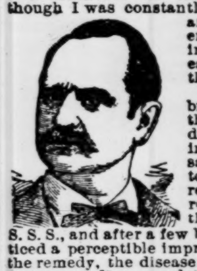
It is true that clothes don't make a man, but they often break him.

**Foul-Smelling Catarrh.**

Catarrh is one of the most obstinate diseases, and hence the most difficult to get rid of.

There is but one way to cure it. The disease is in the blood, and all the sprays, washes and inhaling mixtures in the world can have no permanent effect whatever upon it. Swift's Specific cures Catarrh permanently, for it is the only remedy which can reach the disease and force it from the blood

Mr. B. P. McAllister, of Harrodsburg, Ky., had Catarrh for years. He writes: "I could see no improvement whatever, though I was constantly treated with sprays and washes, and different inhaling remedies—in fact, I could feel that each winter I was worse than the year previous.



"Finally it was brought to my notice that Catarrh was a blood disease, and after thinking over the matter, I saw it was unreasonable to expect to be cured by remedies which only reached the surface. I then decided to try S. S. S., and after a few bottles were used, I noticed a perceptible improvement. Continuing the remedy, the disease was forced out of my system, and a complete cure was the result. I advise all who have this dreadful disease to abandon their local treatment, which has never done them any good, and take S. S. S., a remedy that can reach the disease and cure it."

To continue the wrong treatment for Catarrh is to continue to suffer. Swift's Specific is a real blood remedy, and cures obstinate, deep-seated diseases, which other remedies have no effect whatever upon. It promptly reaches Catarrh, and never fails to cure even the most aggravated cases.

## "ON FIRE, SEND HELP."

### Steamship Olinda's Appeal Quickly Answered.

Norfolk, Va.; Nov. 20—The German steamship Olinda, Captain Hansen, from Matanzas, Cuba, to New York, with a general cargo, put into Hampton Roads this morning, signalling Cape Henry station, "On fire, send help."

The wire was at once worked to the weather Bureau here and the Merritt and Chapman Wrecking Company was notified. A wrecking tug and two other tugs from Lambert's Point were sent to the steamer's assistance. They met the Olinda near Old Point and towed her to Pinner's Point, where steam was turned into the hold, in addition to that from the Olinda's engine room. Several streams of water were also put in, the tugs working on her until the afternoon, when the fire being deemed out, she was towed to the upper harbor and anchored. Hatches were kept battened down and steam on for some time later. The hatches will not be taken off until tomorrow morning, when it is thought the fire will be out. It is likely the cargo will be overhauled here before the Olinda proceeds to New York. Loss unable to estimate at present.

## CARNEGIE BUYS CUBAN MINES.

### His Company Also Comes into Possession of a Railroad.

Santiago de Cuba, Nov. 21—Officials of the Satanillo & Moroto Railroad and the Ponupo mine admit that both properties have been sold to the Carnegie Company. The Ponupo mine is considered one of the richest manganese mines in the world. It has a practically unlimited deposit of ore assaying at 65 per cent. The railroad, which holds a Spanish construction concession to Manzanillo and Guantanamo, is now a paying property 50 miles into the interior.

Carnegie's representatives have been active in the district for a month, and have secured options on many valuable iron and manganese deposits along the route of the proposed railroad extensions.

### Offer Sliding Scale of Wages.

Fall River, Mass., Nov. 20—Representatives of cotton manufacturers and operatives met today and after a four hours' conference an agreement was submitted to the operatives in the form of a sliding scale of wages based upon margins existing between the price of raw cottons and the prices of cloth. The Textile Council received the offer and agreed to consider it and report back to the manufacturers at their earliest convenience. This action was in no sense an acceptance.

## THE SOUTHERN'S NEW OUTLET.

### It Builds 32 Miles of Road and By Lease Obtains in Route 166 Miles.

Columbia, S. C., Nov. 21—The Southern Railway has in a neat way extricated itself from the dilemma in which it was placed last spring when the Seaboard acquired the southbound division of the Florida Central & Peninsular, which the Southern had been using for its Florida connections. Its lease expires January 1st, but the Southern has found a parallel outlet from Columbia to Savannah.

Trains are now running over a new link 32 miles in length between Columbia and Perry. At this point the Southern's Florida specials will use the Carolina Midland, which has been bought and practically rebuilt by the Southern. Thence, 46 miles to Allendale, on the Charleston & Western Carolina, which is operated by the Coast Line, and will be used by the Southern to Yemassee, 35 miles. From this latter point the Southern enters Savannah over the Plant System, 53 miles. By this arrangement the Southern built but 32 miles of road and obtained a route of 166 miles between Columbia and Savannah, which is but little longer than the Seaboard's acquisition, the south-bound, 143 miles. Chief Engineer Welles supervised the construction of the Perry branch, built by T. B. Jones & Co., of Baltimore. The completion of this 32 miles was accomplished in exactly four and a half months, a phenomenal record, considering that the road cuts through a sand mountain and thence across the swamps of the Edisto, requiring difficult work night and day. The track is of very heavy ballast, and heavy vestibules over this route will be inaugurated December 10th.

**WINE OF CARDUI**

**How a Woman Suffers.**

HOWELL, IND., Nov. 26.
I will always praise Wine of Cardui. It has done me more good than all the medicines I have ever taken in my life. Please send a book about female diseases to the ladies whose names I enclose
Mrs. MINNIE STODGHILL.

**McELREE'S Wine of Cardui**

It isn't necessary for a woman to give particulars. When she says she has "female troubles", other women know what that means. It means days and nights of endless suffering. It means headaches which no tongue can describe. It means that terrible bearing and dragging down in the lower abdomen. It means agonizing backache, and shoulder ache, and arm ache, and aches in the lower limbs. It means nerves on edge—the blues—despondency and loss of hope. It means debilitating drains that the doctors call leucorrhœa. It means martyrdom—sometimes even death seems preferable. And still Wine of Cardui will utterly put those diseases and pains to rout. It has cured thousands of cases when nothing else on earth would. To the budding woman, to the bride, to the wife, to the expectant mother, to those going through the Change of Life, this Vegetable Wine is a blessing.

### LOUISE BREHANY COMPANY

**Entertained a Large and Select Audience Last Evening.**

The second of the series of entertainments in the Popular E [illegible] ainment Course—that of the Louise Brehany Company—given in the Academy of Music last evening, was the most signally successful of any similar entertainment ever given in this city.

The auditorium was filled to overflowing with a cultured and fashionable assemblage, every reserved seat and all the available standing room being occupied. The audience, at the conclusion of each number, evinced their appreciation by most eager applause.

The entertainment was distinctively a high class opera and ballad concert and not a selection on the program was rendered without a most hearty encore.

The eminent pianist, Mr. Sauvlet, who was here last spring, was remembered by many present and his piano selections were received with special favor. The song selections of Messrs. Louis J. Mintz, tenor, Forrest D. Carr, basso, and Miss Jessie Beatrice Monroe, contralto, were liberally applauded and the singers given a recall.

Miss Olga Schmoll, violinist, has charming stage presence, and her playing was artistic.

Miss Louise M Brehany was given a glad welcome and her ballad singing was in her usual excellent style. She well sustained her deserved reputation

### WE MAY LOSE FEDERAL COURT.

**The Recent Action Of the Guilford County Commissioners.**

"It is more than likely that the federal court will be moved from this city to Winston."

This was the statement of a federal court official to a Telegram representative this morning. He stated further that the Guilford county commissioners at their meeting on November 6th, rescinded an order which tendered the free use of the county court room in this city to the federal authorities for their court.

In the spring of 1898 the court room in the federal building here was declared inadequate and inconvenient in other respects, whereupon the commissioners of Forsyth county offered the court house at Winston free of charge if the authorities would move the court to Winston. The commissioners of Guilford likewise tendered the court room in this city to the United States authorities, and the federal court has been held here since that time.

The federal authorities here are considerably stirred up over the recent action of the Guilford commissioners, and say that the federal court will surely be carried to Winston unless the commissioners here grant them the free use of the county court room for holding the district court.

A bill for the appropriation of $50,000 to build an addition to the federal building in this city, was introduced by Senator Pritchard during the last session of congress, but hung fire in some way. However, Senator Pritchard says he is confident that he can get the bill through during the coming session, but in case he is successful it will be a year or two before the addition to the federal building can be built, and in the meantime Winston will have had the federal court, which she will naturally cling to with all possible tenacity.

The removal of the federal court to Winston requires an act of congress and a bill for its removal was introduced in congress at its last session, but went over on the calendar to the coming session.

An architect was sent here last winter by the government and he made a survey of the ground, took measurements of the building and made plans and specifications for the enlargement, which have been submitted to Judge Ewart and every officer of the federal court. They were approved by these officials as being entirely satisfactory and perfectly convenient to accommodate the business of the federal court

The plans are for the addition to be erected east of the old building and adjoining same. It is to be three stories high. The first floor will increase the size of the postoffice, and is also for the internal revenue agent's office. On the second floor will be the court room and judge's room, and the third floor will be used for jury rooms, and as a place for filing the records of the court and other documents. Another story will be added to the old building. The addition is to be 42 feet wide and 10 feet longer than the present structure.

The government officials have a standing offer from the Forsyth county commissioners tendering the Winston court house free of charge, and if our citizens appreciate the possession of the federal court something should be done at once looking to the holding of same.

A federal court in Greensboro means much for us, for about $25,000 is spent here each year by the federal court authorities.

**The Poet Burns,**

Not the least of the advantages attending life assurance is the serenity of mind which attends the provident man lying on a bed of sickness, or when he is in prospect of death—so unlike that painful anxiety for the future welfare of the family not provided for. The poet Burns, in writing to a friend a few days before his death, said that he was "still the victim of affliction. Alas! Clark, I begin to fear the worst. Burns' poor widow and a half a dozen of his dear little ones, helpless orphans; there, I am weak as a woman's tear. Enough of this, [illegible]
